Louis Reichardt (University of California, San Francisco)  
**Reversible regulation by BDNF and TrkB signaling in controlling inhibitory synapses in the cerebellum**
- 13:45 - 14:40 Oral session 1 [Royal Hall, B1F] Chaired by Yasuhiro Itoh  
13:45 - 14:25 Hongjun Song (Johns Hopkins University)  
**Molecular regulation of epigenetic DNA modifications in the adult brain**
- 14:25 - 14:40 Shohei Furutachi (The University of Tokyo)  
**Embryonic origin of adult neural stem cells**
- 14:40 - 14:50 Coffee break
- 14:50 - 15:45 Oral session 2 [Royal Hall, B1F] Chaired by Yuji Tanno  
14:50 - 15:30 Ari Pekka Mahonen (University of Helsinki)  
**Dynamic interplay between auxin and PLETHORAS orchestrates root growth**
- 15:30 - 15:45 Yuki Hirakawa (The University of Tokyo)  
**TDIF peptide signaling promotes stem cell maintenance in the Arabidopsis vascular meristem**
- 15:45 - 15:55 Coffee break
- 15:55 - 17:10 Oral session 3 [Royal Hall, B1F] Chaired by Masahiko Tanabe  
15:55 - 16:20 Jennifer James (National Institutes of Health)  
**TGF-beta signaling in angiogenesis and lymphangiogenesis during development**
- 16:20 - 16:55 Polina Lishko (University of California, San Francisco)  
**Ion channels and male fertility**
- 16:55 - 17:10 Daisuke Ino (The University of Tokyo)  
**ATP-induced inositol 1,4,5-triphosphate signaling in Schwann cells required for myelination**

- 17:10 - 17:20 Poster preparation  
 17:20 - 19:50 Poster session [B1F]  
     17:20 - 18:10 Poster session 1
